DHOPESHWAR ENGINEERING PVT. LTD

Our journey began in 1963 as manufacturers - designing, fabricating & commissioning premium grade 'Special Purpose Machinery'(SPM) for the chemical sector. By the 1990's we diversified our range of equipment to cater to the Agriculture & Poultry sectors as well. In our 6 decades of Engineering, we have fabricated over 200 different kinds of equipment & are recognized as Industry leaders for providing 'Zero Discharge Solutions' for Poultry Processing & Waste Rendering. As of today, we export our machinery to 22countries across 3 continents & provide after sales service worldwide.

Products Manufactured / Services Offered

2.1. Poultry Dressing Plants - 3 Types - 11 different capacities from 200 / day to 16,000 / day.

- Fully Conveyorised Models - 5 Models from 250 BPH to 2000 BPH
- Fully Manual Models - 4 Models from 200 / day to 2,000 / day
- Hybrid Models - 2 Models for 2000 to 4000 / day

2.2. Poultry Waste Process Plants - 4 Types of Wastes in 14 different capacities.

- For Layer & Breeder Manure - 2 cap. 10 Tons / day & 20 Tons / day.
- For Hatchery Waste - 12 cap. From 250 kg / batch to 3500 kg / batch.
- For Slaughter house waste - 14 cap from 250 Kg/batch to 5000 kg/batch.
- For Poultry Fat - 2 cap from 500 kg / day to 1 Ton per day.

Objective for Participation in Poultry India

Display latest Technologies and Plants for Poultry Dressing and Poultry Waste Management.

Services and Products on display in Poultry India

Poultry Dressing Plant - Conveyorised Model suitably built as standard 20 ft. Container Model for Shipping. Poultry Waste Process Plant - Suitable skid mounted with Outdoor control system, Solid Separator etc. Poultry Processing Equipment such as Hot Water Scalder, Drum Plucker etc.

METPLAST INDUSTRIES

Welcome to Metplast, where innovation and customer satisfaction drive us. Located in Khopoli, India, METPLAST INDUSTRIES (MI) is a leading manufacturer of poultry equipment. With nearly 30 years of experience, our founder, Mr. Rajesh M Rosia, leads us in developing cutting-edge poultry farming equipment. Our motto, "Think of poultry, Think of us" has inspired the creation of breeder, broiler, pullet, and layer battery cages. We prioritize customer feedback to ensure top-notch performance. Our advanced facility and skilled team deliver world-class products. Join us in achieving excellence in poultry farming.

Products Manufactured / Services Offered

Metplast Industries specializes in creating high-quality poultry equipment. Our innovative products include breeder, broiler, pullet, and layer battery cages. We offer turnkey projects, automatic and manual equipment, and collaborate with European firms for ventilation and cooling systems. With cutting-edge design and technical expertise, we provide world-class solutions for poultry farmers. Our precision sheet metal and structural fabrication services, along with welding capabilities, deliver top-quality products. We're dedicated to customer satisfaction and are committed to environmental responsibility. Join us for innovative poultry solutions.

Objective for Participation in Poultry India

Our goal for Poultry India Exhibition 2023 is to exhibit our innovative poultry equipment, connect with industry leaders, and explore opportunities for growth and collaboration. We aim to reinforce our commitment to advancing poultry farming and engaging with industry stakeholders.

Services and Products on display in Poultry India

At Poultry India 2023, we showcased a range of innovative poultry equipment, including breeder battery cages, broiler battery cages, California A-Frame cages, pullet battery cages, and layer battery cages. We also displayed customized cage automation items, such as egg collection and manure removal systems, designed to meet our customers' specific needs. Our services included consultations on poultry farm ventilation and cooling systems in collaboration with European firms.

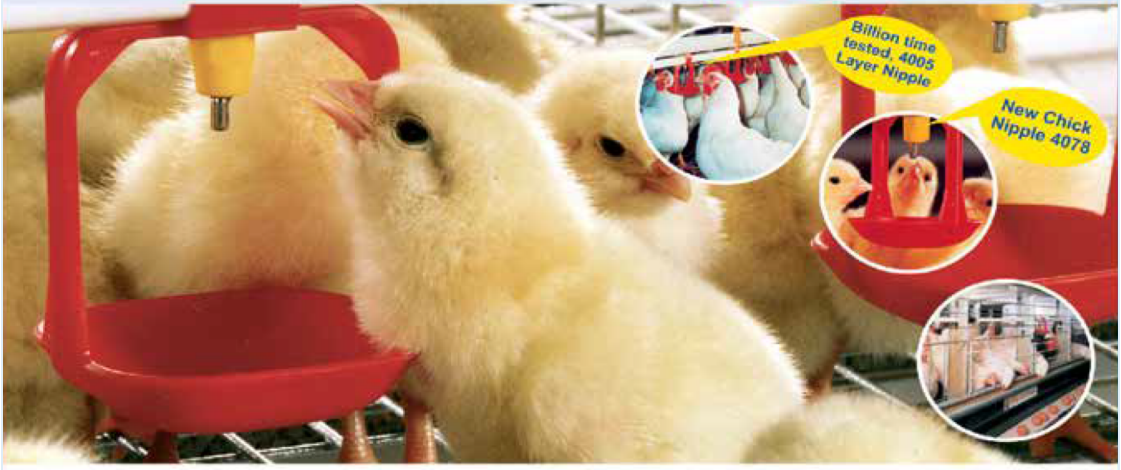
LUBING

THE ORIGINAL!



Quality Products From Lubing For Your Poultry Farm

Conveyor System

For Egg Transportation

The conveyor system is of crucial importance for egg farms of all sizes.

- Maximum operational safety and minimum maintenance.
- A unique construction system with elements designed to cope with any imaginable spot requirement (all kinds of curves, heights and distances can be achieved).
- Conveyor chain widths between 200 and 750 mm.
- Capacities: From 15,000 to over 65,000 eggs per hour.

Watering System

For Chicks & layers In Cages

LUBING nipple system offers you the following advantages:

- A simple, reliable water supply.
- Constantly fresh and clean drinking water.
- Nearly no maintenance or cleaning
- Improved rearing results.
- Trouble free rearing of all birds
- The combination of nipple and drip cup ensures dry manure.

BEWARE OF DUPLICATES. BUY ORIGINAL *LUBING* PRODUCTS ONLY

Top Climate System

The "LUBING" Top-Climate-System is developed for effective humidifying, cooling and dust binding of the house air. It works according to the principle of the direct evaporative cooling. The advantages at a glance:-

- Fast cooling in the house without any wetness.
- Effective dust binding influences positively the breath organs of animals
- Better feed conversion.
- Regular spread of temperature.
- To spray in medicated water (For prevention & therapy of respiratory diseases).

Polaris

Total Hi-Tech Solutions For Your Livestock

Pan India Dealers For

ROXELL® Feeding System For Broilers & Breeders

The Roxell Feeding System comes with superior technology plus it also saves your cost. Its large feeding surface which offers optimal eating comfort & its low pan edge gives birds a easy access to the feed. Its unique pan with high anti-waste rim eliminates practically all feed waste & the control unit ensures a fast and frequent delivery of fresh feed, leading to superior hygiene & outstanding feed conversion rates.

It offers percentage wise more birds per pan. Roxell Feeding System helps in increasing the stocking density without having to add feeder lines thus saving your costs.

TERMOTECNICA® PERICOLI Ventilation System For Poultry & Dairy

TERMOTECNICA PERICOLI new performance enhanced line of EOS/EWS fans are an upgrade model of the ever popular and successful EOS50 with an increased diameter (from 50 to 53") in the same standard body/housing delivering an improved flow performance by 10% & at the same time reducing the energy cost by 30%. This New EOS 53 is truly an innovative fan which covers your every ventilation requirement.

COMBI TERM is a new generation of heaters which guarantees superior performance. They are very versatile for the user. Its body unit can be turned into many different configurations as per requirement. Thanks to the compact external body of new design, logistic and installation is much more easier.

LUBING Watering System For Poultry & Dairy

The LUBING Floor-watering system for broilers consists of the following elements:

- Water supply
- Drinking elements
- Breather unit
- Suspension

The Lubing Drinking system ensures constant supply of simple, reliable, fresh and clean drinking water to your livestock. It requires no maintenance and cleaning. It also helps trouble free rearing of livestock, thus improve rearing results.

RND AUTOMATION PVT LTD

RND Practical Engineering was incorporated in 1988 and was taken over by RND Automation Pvt. Ltd. in 2009. Today an ISO9001:2015 Company; expanding rapidly as a result of our commitment to international standards combined with the economic feasibility of indigenous production as opposed to imports, which customers have been dependent on so far. This combination ensures not only affordability, but also significantly enhances plant productivity and profitability. Since the start of 2023 RND has signed an agency agreement with Baader (www.baader.com). This helps RND to provide poultry solutions from 500 BPH to 15000 BPH.

Products Manufactured / Services Offered

Individual products like Killing Cones, Defeathering Machines, Portioning Machine, Crate Washers, Grading etc. Semi-automatic De-feathering plants & Automatic Conveyorised plants from 500 birds per hour to 15000 birds per hour Automatic Evisceration Line. Auto Deboning Line. Auto Cutup Line.

Objective for Participation in Poultry India

To meet and interact with existing clientele and attain their feedback. To reach out to new audience and garner their interest by showcasing our products and educating them about our company and what we can offer.

SVR POULTRY EQUIPMENTS

SVR Poultry Equipments has been providing cutting-edge, high quality poultry machinery for about 35 years now.

We have been able to maintain our quality consistently through the years because of which our customer retention has been very high. We were never really the ones to compromise on quality even one bit.

Our approach to our customers has always been transparent and honest. We believe in delivering what we promise to our customers.

Products Manufactured / Services Offered:

Feed plants with starting capacity of 1 ton/hr to 8-10/ton/hr through semi-automated process and auto batching system for broiler, layer, and parent birds with raw material storage from 25 ton to 100 tons.

Hoffer bottom silos from 4 tons to 300 tons and flat bottom silos from 300 tons to 5000 tons with complete process of design, manufacturing, execution.

Loading and unloading of grains from truck to silo (grains cleaner) and silo to feed plant with complete automated process.

Bulk feed tankers from 5 ton to 22 tons capacity.

Feed trolleys for layer and parents with fully and semi-automated system.

Screw conveyors, bucket elevators, egg trolleys, Godown bag trolleys and complete poultry and rice mill fabrication works.

Objective :

To Increase our customer relation and it's a very good platform to meet potential customers.
